FEMALE VJ

Whether it is the opening of a museum in Amsterdam, the Edison Gala, The Voice of Holland or - a little further away from home - the spectacular Madonna show at the Super Bowl: amazing animations and projections these days are hard to miss on big events. Such images are created by a VJ: the visual twin of a DJ.

In a short amount of time a new creative hi-tech scene has risen that is all about visual illusions and the creation of a visual decor. Would you like to add a phenomenal visual addition to your event? The make sure to book a VJ!

More information on our Female VJs can be found on page 38.
